

# Printing instructions

You may print the board game at home, but if you are planning to use it often, we recommend that you have it printed by a print shop.

The size of the game board is **A3 i.e. 297x420 mm**. Please use paper with a thickness of **2-2.5 mm** (i.e. cardboard). It is recommended to laminate the board for frequent use.

Card size: **74x105 mm**. Use at least **300 GSM** paper for printing. Cards should also be laminated.

The covers for Wisdom cards and Luck cards are identical.

Both the game board and the cards are designed for printing in a print shop.
